

*Interconnecting the Network of Networks.* [MIT](#), Cambridge, MA, 2001.

Eli M. Noam

Contents

Acknowledgments	xi
1 Interconnection as the Key to the Network of Networks	
1.1 Breakdown of the Centralized Network and Emergence of the Network of Networks	1
<i>Concept of Network</i>	6
<i>Breakup of Networks</i>	7
1.2 Why Regulate Interconnection?	10
<i>Antimonopoly Rationale</i>	11
<i>Transaction Cost Rationale</i>	13
1.3 Regulation of Interconnection and Unbundling in a Competitive Market	14
1.4 Consequence of Interconnection on the Network System	16
2 Interconnection as Tool for the Creation of Monopoly	
2.1 Period of No Agreements in the United States	17
2.2 Period of Contracted Agreements	18
2.3 Road to Regulated Interconnection	18
2.4 Establishment of a Regulatory System	21
2.5 Early History of Interconnection in Europe	22
<i>Sweden</i>	22
<i>Norway</i>	23
<i>United Kingdom</i>	23
3 Interconnection Policy as Tool to Establish Competition and Control Markets	
3.1 Reciprocity and Symmetry	27
3.2 United States: The Regulatory Bodies	30
3.3 Equipment Interconnection: The Beginning of Interconnection as a Tool for Competition	32
3.4 Long-Distance Interconnection and the Demise of the Bell System	35
3.5 U.S. System of Access Charges	38
<i>Exchange Network Facilities for Interstate Access</i>	39
<i>Equal Access, 1984 to 1994</i>	40
<i>Interconnection Regime after the 1996 Telecommunications Act</i>	43
3.6 Mobile Interconnection	46
3.7 Local Competition and Interconnection	48
<i>Local Interconnection—Virtual or Physical Collocation</i>	49
<i>Local Interconnection--The FCC</i>	52
3.8 The 1996 Telecommunications Act	54
3.9 Cable Television Interconnection	58

3.10	Internet Interconnection	63
<b>4.</b>	<b>Pricing of Interconnection and Access</b>	
4.1	Unregulated Pricing of Interconnection	69
4.2	Regulated Pricing of Interconnection	75
	<i>Zero-Charge (Bill-and-Keep) and Lump-Sum Charges</i>	76
	<i>Average Cost Pricing</i>	78
	<i>Fully-Distributed Cost (FDC) Pricing, Two-Part Tariffs, and Capacity-Based Pricing</i>	78
	<i>Price Caps</i>	80
	<i>Ramsey Pricing (Optimal Price Discrimination)</i>	80
	<i>Wholesale Pricing</i>	81
	<i>Efficient Component Pricing</i>	86
	<i>Marginal Cost Pricing</i>	94
4.3	Costs of Interconnection	104
4.4	Arbitrage Model Pricing of Third-Party Neutrality	111
4.5	Assessment	113
<b>5.</b>	<b>Interconnection Around the World</b>	
5.1	International Interconnection	117
	<i>The Traditional ITU System</i>	117
	<i>Intelsat</i>	119
	<i>Submarine Cables</i>	120
	<i>Accounting Rate System</i>	121
	<i>European Commission</i>	128
5.2	Open Network Provision in Europe	129
5.3	World Trade Organization Agreement	134
5.4	United Kingdom	138
	<i>Mercury Interconnection</i>	139
	<i>Duopoly Review and Access Deficit Contribution Debate</i>	140
	<i>Cost Separation and Unbundling</i>	141
5.5	Germany	144
5.6	France	146
5.7	Japan	149
	<i>Long-Distance Competition without Definite Interconnection Rules, 1985 to 1991</i>	150
	<i>Interconnection Reforms</i>	150
	<i>Designated Facility Rule</i>	151
	<i>Holding Company System and LRIC</i>	152
5.8	Korea	153
5.9	India	154
5.10	Mexico	156
5.11	Canada	159
5.12	Australia	160
5.13	New Zealand	162
5.14	Concluding Observations	167

<b>6. Unbundling the Network</b>	
6.1 Why Unbundling?	169
6.2 Open Network Architecture	174
<i>Emergence</i>	174
<i>ONA Unbundling</i>	179
<i>ONA Unbundling Under the 1996 Telecommunications Act</i>	182
<b>7. Interconnection and Technology</b>	
7.1 Physical Interconnection	185
<i>Technical Interconnection: An Introduction</i>	185
<i>Interconnection of Telephone Networks</i>	187
<i>Interconnection of Cellular Mobile Networks</i>	189
<i>Interconnection of Data Networks</i>	190
<i>Network Management and Control</i>	194
<i>Signaling</i>	196
7.2 Standardization	198
7.3 Service Quality	202
7.4 Numbering and Portability	204
<i>Telephone Numbering</i>	204
<i>Number Portability</i>	206
<b>8. Interconnection and the Flow of Content</b>	
8.1 Legal Regimes and Information Flow	211
8.2 The Evolution of Common Carriage	213
<i>Common Carrier Determination</i>	214
<i>Unreasonable Discrimination</i>	214
<i>Common Carriage and Interconnection: What Does the Future Hold?</i>	215
8.3 Impending Doom of Common Carriage	217
<i>Media Conduits as Private Carriage</i>	217
<i>Private Contract Carriage</i>	219
8.4 A Mixed System?	223
8.5 Third-Party Neutrality as a Substitute for Common Carriage	225
8.6 Interconnection Status of Cable Television	227
8.7 Access to Telco High-Speed Service	229
<b>9. Social Issues in the Interconnected Network: Universal Service and Privacy</b>	
9.1 <i>Universal Service</i>	231
<i>Reforming Universal Service</i>	231
<i>Financing Today's Universal Service System</i>	232
<i>Financing the Universal Service System: Options for Tomorrow</i>	234
<i>NetTrans Account System</i>	237
<i>The FCC's Universal Service Reform</i>	239
9.2 Privacy in the Network of Networks	240
<i>Emerging Privacy Problems</i>	240
<i>Policy Approaches</i>	242

<i>Markets in Privacy?</i>	243
<b>10. Into the Future</b>	
10.1 Emerging Network Technology	247
10.2 Transformation of Networks	248
<i>From Interconnection to Modularization</i>	248
<i>From Modularization to Integration and Personal Networks</i>	249
<i>From Integration to Reorganization</i>	252
10.3 Future of Regulation in the Networks of Networks	253
<i>Expansion of Redistribution</i>	254
<i>Expansion of Consumer Protection Regulation</i>	254
<i>Privacy Protection</i>	255
<i>Legacy Rules</i>	255
10.4 Regulating Interconnection?	255
10.5 Societal Interconnectivity	260
